

# Letter of recommendation

I have known Abusahmoud Omar since February 2023, I teach him database systems course [Computer Science major (programtervező informatikus BSc) at the University of Nyíregyháza, Hungary. He attended classes regularly, I saw good motivation and interest in him. He actively participated in the lessons: he listened to the lectures, answered the questions on the practice classes, and asked questions himself. He was well not only from a theoretical, but also from a practical point of view. His technical preparation leaves nothing to be desired either. His vision of the future is positive, he envisions his place in the IT industry. I can confidently say that he will stand its ground in the world of IT.

Debrecen, June 1 2023

Dr. Sándor Vályi, assoc. professor, University of Nyíregyháza, Institute of Mathematics and Computer Science
